CHAIRMAN'S NOTE

Mohammed Hussain Alshaali
Chairman

Gulf Craft was born in 1982 out of a love for the sea, a passion for building and a firm belief that the success of the Emirates should be based around productive industry – three key pillars that still support what the company does three decades since we first began.

35 years is a long time, and as the Emirates has undergone a sea change in terms of progress, prosperity and prominence on a global stage, we are privileged to have been both a witness to this transformation and a fellow traveler – growing from a humble Emirates based boat builder to a globally respected shipyard with a presence in more than 40 countries worldwide.

Over the years, we have measured our success on the continued confidence and loyalty of our customers and business partners and our ability to maintain a 100% delivery track record – successfully delivering more than 9,000 craft since we first began, across a spectrum that ranges from family fishing boats to the most luxurious superyachts.

The Majesty Yachts brand is in many ways Gulf Craft's flagship brand – representing the epitome of our engineering and design sophistication, our ability to translate our clients' vision into luxurious reality and our ambitions to build bigger and better yachts in the years to come.

LOOKING AHEAD

Erwin Bamps
Chief Executive Officer

As a company, Gulf Craft finds itself in a very fortuitous position – both in time and space.

Celebrating 35 years is a good period to acknowledge the company’s growth and success over the past three decades but it is also the perfect time to look ahead to what is to come.

Geographically, Gulf Craft is positioned in a very strategic location – close enough to the traditional yacht markets of Europe and poised on the very edge of fast-growing Asia.

With the launch of the Majesty 155, Gulf Craft has proven its capabilities – in terms of innovation and ability to both anticipate and deliver what the global market wants in size and sophistication.

Gulf Craft continues to invest in equipment capable of handling larger and more technically challenging builds and skilled workmanship capable of meeting more demanding requests, proving Gulf Craft’s long-term confidence in the global superyacht market and our own position within it.

COMPANY HISTORY

In 1982 Mohammed Hussein Alshaali along with his brothers Abdullah and Jamal, and Dr. Mohammed Hamdan, their long-standing friend, established Gulf Craft in the United Arab Emirates – driven by an entrepreneurial spirit, a love for the sea and a firm belief that the long-term success of the nation lay in the manufacturing industry.

REFINED BOAT BUILDING SKILLS PERFECTED OVER 35 YEARS

At Gulf Craft we believe each yacht we build is unique – an individual and complex exercise in engineering, design and craftsmanship; which is why we prefer the term yacht builders rather than yacht producers. Our shipyard does not resemble a production line – each yacht is an individual project, finished uniquely to match the desires of its owner.

Our yachts are developed using detailed computer modeling and using the latest technologies such as CNC and waterjet, but the human hand still lends the final touches and it is the human eye that grants the final seal of approval after the industrial tests and standards are stamped. We value craftsmanship and it is a skill we have nurtured for over three decades.

Gulf Craft, the world's innovative builder of luxury yachts and leisure boats, has served the aspirations of passionate seafarers for more than three decades. The award-winning manufacturer is one of the world's leading superyacht shipyards, a merit it has achieved through continuous investment in research and development.
